

## SHE TRIES SHOOTING

Mrs. L. E. Rosebery of Bayneville Objects to People

## PASSING NEAR HER HOME

Sheriff Simmons Requested to Place Her Under Arrest.

Mrs. L. E. Rosebery, who was tried in the probate court several years ago on the charge of insanity and the case dismissed, has again been creating a disturbance at her home near Bayneville in the lower part of this county. Sheriff Simmons received a telegram from that place yesterday asking him to immediately place the woman under arrest, as she has been in the habit of shooting at people who pass along the public highway near her home.

There have been no disastrous results reported, but the people of that neighborhood are much agitated over the disturbance and fear that some serious accident may result from the shooting. Sheriff Simmons will probably investigate the matter today.

About four years ago, Mrs. Rosebery was taken into the probate court before Judge Haymaker to have the question of her sanity tested. There were several witnesses, among them being her husband and children. Mrs. Rosebery was not put on the witness stand herself and in fact stated to the judge that she thought it better for every one concerned that she be confined in the asylum, with the idea that proper treatment would restore her mind to its normal condition. For a time she was confined in the county jail awaiting an order of commitment to the asylum. After thinking over the situation and being advised by friends, she finally applied to the probate court for a rehearing of her case.

According to the statutes of the state, Judge Haymaker authorized a rehearing of the case, and a date was set for the new trial. At the appointed time, Mrs. Rosebery was taken into the court, but none of the witnesses whose testimony at the previous trial had caused her to be adjudged insane were present and after a consideration of the matter, Judge Haymaker ordered that Mrs. Rosebery be released from custody.

After the second trial, Mrs. Rosebery returned to her home on the farm, which she occupies at the present time. A short time after her return, her little boy died very suddenly from some unknown cause. At the present time, Mrs. Rosebery lives on the farm with one little boy and conducts the business of the farm without the assistance of others. Her husband has been dead for several years and the other children live in other parts of the county.

Mrs. Rosebery presents the appearance of being a very bright woman and at times seems to be perfectly sane. Those who have investigated her case say that she has hallucinations similar to all people troubled with insanity. In addition to these hallucinations there are many marked symptoms, peculiar to those afflicted.

Mrs. Rosebery seems to be a woman of remarkable ingenuity and on being closely questioned in regard to her strange actions of herself, usually finds some valid method of explanation. Coupled with her ingenuity is that of a positive denial. In some of her actions she makes a denial so strong that, apparently, all doubt vanishes as to her condition.

It was said yesterday at the court house that she was one of the most remarkable persons examined for insanity in the probate court. On several instances she is known to have carried weapons, while in the city with the idea of using them. She once entered the probate court room with a revolver, but serious difficulty was avoided.

One time while E. E. Knuch was justice of the peace in this city, Mrs. Rosebery was a party in a suit of some importance in that court. After the case was decided, she carried a revolver for some time with the avowed intention of making things warm for Judge Knuch.

Her case is more remarkable owing to the fact that since the death of her husband all of the farm work has been carried on without the assistance of other people.

The farm is a good one and the land will command a good price. People have said that the products of the farm have been well cared for during each season. There is some apprehension that the officers who have trouble in making the arrest, owing to the fact that Mrs. Rosebery is armed. It would not be strange that she should try to prevent the officers from approaching her home and resisting the arrest.

## NEW LINE TO HAVEN

Telephone Communication Between Wichita and That Place.

The finishing touches on the new telephone line of the Missouri and Kansas company have been made between Wichita and Haven and communication is now open. This line was commenced to be built in order to accommodate the small towns between here and that point, from which the company will obtain considerable revenue. This company already has one line to Hutchinson, but the new enterprise will open up a vast amount of undeveloped territory. The work from Haven on to Hutchinson is continuing, a force of men being at work all the time. It is the intention to have it finished by September 1st.

## NEW LIGHTS ARE ON

Street Light Circuit in North Part of City Tied Last Night.

People in the north end of the city were surprised last night when some of the new electric street lights shone forth in all of their brilliancy. There were nearly twenty lights being used and they are a decided improvement over the old ones, which were recently taken down.

The circuit in the north part of town, from Tenth to Eighteenth street has been placed in position and the work on the other circuits over the city is being rapidly pushed by a large force of men under the direction of Mr. L. O. Williams, who has charge of the electrical work.

## "Waste Not, Want Not."

Little leaks bring to want, and little impurities of the blood, if not attended to, bring a "Want" of health. Hood's Sarsaparilla is the one and only specific that will remove all blood humors and impurities, thereby putting you into a condition of perfect health.

Bad Stomach—Headaches and tired feeling, bad condition of stomach, caused me to take Hood's Sarsaparilla. It stopped all faint trouble." Charles Boyer, Glen Falls, N. Y.

**Hood's Sarsaparilla**  
Never Disappoints

Hood's Pills cure liver ills, the most irritating and only cathartic to take with Hood's Sarsaparilla.

struction, both at the power house and over the different lines.

The new lights are more than the old ones and have a small globe inside of the large outside globe. The lights will burn continuously for ninety hours without needing new carbons and are the most improved pattern made at this time. The lights do not make any shadows and the reflector is at the top of the lamp and has a coating of white enamel, making a pure white light. One of the objections found with the old lamps was the failure of the carbon to come down and this would cause the light to be out for a time. Under the new method the light burns continuously while the current is on.

## THEY COME

DISPATCHER'S OFFICE REMOVED FROM CONWAY SPRINGS.

Are Now Established at the Twelfth Street Depot Office.

The much reported removal of the Missouri Pacific dispatchers' office from Conway Springs to Wichita yesterday culminated in a decided reality. The change is now being made, part of the force having come up yesterday. The remainder will follow today. The offices will be maintained at the Twelfth street depot until the new building is completed. New tables have been put in at the Twelfth street office and additional wires strung. The Western Union Telegraph company office, through which all the lines run, has added additional batteries.

The change is not only advantageous to the company but will prove beneficial to the town, as it brings nine additional people here, some of whom have families. The working force comprises five regular train dispatchers and three operators, and is divided into three shifts of eight hours each. Mr. Charles Nedro is the chief dispatcher. He will arrive in the city tomorrow with his family. The Twelfth street offices have recently been equipped with the necessary appliances and tomorrow the dispatchers will be comfortably situated. All the connections have been made and everything is in readiness. There has been talk of removing these offices here for some months, but the report could never be confirmed by the officials. The reason for the change is that Wichita is more centrally located on the Missouri Pacific system in this part of the country. Another reason is that better and more commodious quarters are to be provided in the new building. When completed the company will do away with the Twelfth street office and move the building to the yards and use it for a freight depot. There are to be two freight depots, one to receive the freight and one to ship. This will require two house tracks and the company will provide for both.

## WANTS LEGAL SEPARATION

Daisy D. Clark Sues Leo P. Clark for Divorce in District Court.

A suit for divorce was filed late yesterday afternoon in the district court in which Daisy D. Clark asks for a legal separation from Leo P. Clark.

The petitioner avers that she and the defendant were married in this city during January, 1898, and that since that time the defendant has been guilty of gross neglect of duty. The petition states that he is guilty of being a habitual drunkard and that he has failed to provide the plaintiff with a home and the necessities of life.

The petitioner also avers that the defendant is guilty of committing crimes and has been confined in jail on various charges. On account of all the charges stated by the plaintiff, the court is asked to grant a divorce and restore her maiden name, that of Daisy Clark. The court is also petitioned to assess the costs of the suit to the defendant in the case. W. C. Miller is the attorney for the plaintiff.

## TAKEN UNDER ADVISEMENT

Judge Hoak Will Decide the Rock Island Motion Later.

Attorney Houston arrived home from Leavenworth yesterday where he has been attending federal court. The motion to transfer the damage suits against the Rock Island Railroad company, which are the cases resulting from the disastrous collision two years ago, to the federal court was argued. M. A. Low, chief counsel for the railroad company, opened the argument. Numerous authorities were presented tending to show that the production was so great that a sale and removal trial will not be obtained in this court or in any other state court where the cases might be taken on a change of venue. Mr. Houston also presented affidavits and argued that there was no probability that would prevent a fair trial. Judge Hoak heard the motion in chambers and took the matter under advisement. He is expected to hand down his opinion shortly.

## KANSAS WHEAT FOR EUROPE

Arrangements Will Be Made at Grain Shippers' Conference.

A dispatch from Kansas City says that representatives of grain shippers arrived there yesterday and began preliminary arrangements to the shipment to Europe through the southern ports of Kansas, Oklahoma and Indian Territory wheat. A committee from the boards of trade of New Orleans and Galveston, accompanied by the state grain inspectors of Louisiana and Texas, made up the party which later conferred with grain shippers of Missouri and Kansas. The conference will adopt a standard of grading the new wheat and the movement will begin as soon as the classification has been decided upon.

## DORAN CASE REVIVED

Commissioners Ask E. Werner to Make Settlement.

## STOCK IS ATTACHED

Warner Is Surety on Ex-Treasurer Doran's Bond.

Attachment papers were issued from the district court yesterday against the property of Emil Werner, the Douglas avenue hardware merchant, who was one of the sureties on the bond of the late John Doran at the time he was the county treasurer.

The proceedings are the result of what is known as the Doran shortage and in recent suits the bond holders were made liable for about \$7,000. It is said that some of the signers of the bond have compromised with the county commissioners on the amount of their share of the entire claim but that Werner had never agreed to a settlement of his part of the amount.

The papers were made out from the district clerk's office for the full amount of the claim against the sureties of the bond owing to the fact that there was no record in that office that the matter has ever been settled or even any compromise made.

The stock of goods belonging to Werner, on East Douglas avenue, was taken possession of yesterday afternoon by Sheriff Simmons and some settlement, as to their disposal is expected to be reached within a short time.

Emil Werner owns considerable property in the city and whether any other but the hardware store had been attached could not be learned last night.

The Doran shortage, as it is familiarly called, is known to all of the residents of the county owing to the wide publicity while the case against the sureties on the bond was in the courts. When the shortage was first announced it was said to be a very large amount, but after an expert had gone over the books used during Doran's term of office, it was found that the shortage was much smaller than when the first announcement was made. In the suit which was tried in the district court, the county commissioners secured a judgment against the sureties on the bond, but in some of the cases there seems to have been no determined effort to get the matter settled up, until recently.

There seems to be some question as to the amount for which Werner is liable as a surety on the bond and as the attachment papers were made out for the entire amount, \$7,000, it is wondered if his property is to satisfy the claim.

The attorneys are working on the case and a compromise may be reached in regard to the matter.

## ARE MUCH IMPROVED

Mrs. Miller and Miss Gilbert Rapidly Recovering From Accident.

Miss Blanche Chandler Miller and Miss Grace Gilbert, who were in the serious runaway which occurred several weeks ago, are improving steadily in condition and within a short time will be entirely recovered from the effects of the accident.

Mrs. Miller is able to sit up in her room and within a few days will be in condition to go over the house without assistance. One arm still continues to give her pain, but under treatment this member will cease to give trouble within a short time.

Miss Gilbert is much improved in condition. She is very nervous and is not allowed to talk much of the accident. Within a few days she will be allowed to see visitors, should her condition continue to improve as in the past. The wound on the side of her face and neck is healing very rapidly and there seems to be no danger from inflammation of the lungs.

## AND STILL THEY DO IT

Two More Arrests Caused by Hiding Bicycles on Sidewalks.

The police patrolmen have received instructions to take no foolishness regarding riding bicycles on the sidewalks, and as a result two more arrests were caused yesterday. They were Yorne Garland and J. Nichols. Two young men caught by Policemen Downing.

Garland appeared in police court and was fined \$5, which was paid. The other offender has not appeared yet. Chief Cullen and the department are very much annoyed that the bicyclists in Wichita do not take a tumble to themselves and heed the rule recently made that riders dismount when meeting people on the sidewalk. "It requires an effort to do this," cautioned the chief, "and if they would do it everything would work harmoniously and bring good results. Every leniency possible is given, but at this stage of the game patience ceases to be a virtue."

## CLAUDE DUVAL WAS HERE

I. P. Campbell's Opponent is in the Trenches.

If it ever comes to a test, and there is every likelihood that it will, it will be a hot and tuck between Claude Duval, the Democratic candidate for congress, and I. P. Campbell, the Populist candidate, to see who gets the most votes. Mr. Duval was in the city yesterday on his way to Yates Center and to his political friends who conversed with him, he showed no inclination to be removed from the ticket. Mr. Campbell has his Democratic followers in Sedgewick county and Mr. Duval has his Populist followers in his own county, and it is expected that the politicians on both sides that there is no chance for the two forces to concentrate. Mr. Duval has decided, or rather his committee has decided, not to make any speeches during the campaign, while Mr. Campbell has already outlined a series of towns in which he will tell the people how it was all brought about.

## IS IN COURT OF APPEALS

Case of Wylie Bros. Vs. Crystal Ice Co. From District Court.

A case appealed from the district court of this county to the appellate court was filed in that court yesterday. The Crystal Ice company and E. R. Powell are the plaintiffs in error and Wylie brothers are the defendants in error. The case was tried in the district court and attracted considerable attention owing to the fact that it brought up the ice situation of two years ago.

## AT Cash Henderson's Newest in Everything

to furnish Wylie Bros. with the entire output of their ice for the city trade during that season at a rate not less than \$2 per ton nor more than \$3 per ton during the warm season.

After the contract was made Wylie Bros. claim that they made all arrangements to begin the regular delivery of ice to their customers and in making these arrangements incurred the expense of \$875.

On demand of the Wylie Bros. the Crystal Ice company refused to furnish them the ice as per the verbal contract and gave as their reason that they had entered into a contract with other parties for the entire output of their plant.

The plaintiffs in the case claimed that a combination had been formed for the selling of the product of the ice plant at an advance of price and for the damages which they incurred in the getting ready for delivering the ice which the Crystal company were to furnish and the combination to advance the price on the ice output, they asked the sum of \$200 damages and an additional \$200 for attorney's fees.

After the matter was heard in the court, the decision was that Wylie Bros. should receive a judgment for \$200.00 and \$200 for attorney's fees.

## LAWN SOCIAL TONIGHT

By Ladies of the St. John's Church on Commercial Club's Lawn

This evening on the lawn of the Commercial club corner of Tenth and First, the ladies of the St. John's church will give one of their charming socials.
